Title: Image Upload Limit Bypass via Android Keyboard Clipboard Paste

Summary: An image upload restriction can be temporarily bypassed on the ChatGPT Android application by pasting images directly from the keyboard clipboard even after the image limit is reached.

Steps to Reproduce:

1. Reach image upload limit.
2. Keep keyboard open.
3. Paste image from clipboard.
4. Image uploads successfully.

Impact: Logic-based UI and backend desynchronization causing limit enforcement bypass.
